Reasons for Allowance

Allowable Subject Matter

Claims 1-26 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: the closest prior art of record, Graham, U.S. Patent No. 6,491,584 B2 does teach of a secondary game re-triggering event in the second game which re-triggers the secondary game. However, Graham lacks in disclosing an accumulator in the secondary game, which accumulates the secondary game re-triggering symbols. Graham at most recites only a counter to count the number of re-triggering symbols in each activation of the secondary game. Graham does not accumulate secondary game re-triggering symbols in at least two activations of the secondary game. Graham merely re-triggers the secondary game when a certain number of re-triggering symbols appear in one activation of the secondary game. Hedrick et al., U.S. Patent No. 6,135,884 does disclose using an accumulator to accumulate symbols in multiple activations of a game. However, the accumulation of these symbols results only in a bonus to the player, not a re-triggering of a bonus game. Therefore, one would not be motivated to combine Graham with Hedrick, furthermore, the combination would not result in Applicant's invention since Graham still counts the number of re-triggers in each activation and there is no motivation provided to say that Graham should accumulate these re-triggering symbols.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, filed March 7, 2005, with respect to claims 1-26 have been fully considered and are persuasive. The previous rejection of the claims has been withdrawn and the claims have been allowed.
